

20 July 2017

Reference Letter to STM:

It has been 5 years since we outsourced our golf course maintenance to STM. The improvement to our course year to year has been outstanding and the reason why we have renewed our contract with them for another 3 years. The course is looking great, but it is their attention to detail that satisfies us most.

We work closely together on a day to day basis and it is their understanding of our needs that makes this a successful partnership. They are always willing to help.

They are professionals at work and we respect them for that.

Yours in Golf,

Ryno Bernardo
General Manager
