GOLF COURSE MAINTENANCE SERVICES – SOUTHERN TURF MANAGEMENT

I am fortunate to have been involved in the golfing industry since 1997 employed by organizations such as the Southern Africa PGA Tour, Stellenbosch Golf Club and currently Pretoria Country Club. In all three entities, I was appointed in a managerial capacity. I am currently the General Manager of Pretoria Country Club.

During the summer part of 1997, I met the Directors of Southern Turf Management, Kosie Mentz and Derrick Bolton, during a trip to the President's Cup in Washington DC. Their passion, commitment and love for both the game and turf grass maintenance industry was evident. At the time Kosie was the Head Greenkeeper at Fancourt. A little while later they established the said business and since became the leader in the industry regarding turf grass maintenance. I have personally had the pleasure of working closely with them since 2007 to date. STM is a loyal, honest and knowledgeable company with unquestionable integrity.

I can therefore confidently recommend their services to any establishment seeking a "turn-key" solution for golf course maintenance and or construction.

Kind Regards

Vivian van Wyk
