

12 March 2020

Reference Letter to STM:

It has been 8 years since we have partnered with STM to manage our golf course maintenance. Year to year they are still improving our course quality and condition and therefore reason why we have renewed our contract with them for another 5 years. The course is looking great, but it is their attention to detail that satisfies us most.

We work closely together on a day to day basis and it is their understanding of our needs that makes this a successful partnership. They are always willing to help.

They are professionals at work and we respect them for that.

Yours in Golf,

Ryno Bernardo
General Manager
